## EAT

Located in a storefront on upper King Street, large windows overlook the bustling streets, and seating at the front communal table, banquette tables or bar guarantees a prime people-watching opportunity.

**THE MACINTOSH** is rustic yet refined. Chef Jeremia Bacon, a three-time James Beard semifinalist, merges his exceptional technique-driven fare with locally sourced ingredients for a modern American experience that has drawn in major celebrities like Daniel Craig, Rachel Weiss, Michael Keaton, Will Smith and Bill Murray. Chef Bacon is a Charleston native -- a rarity in most local kitchens -- and he uses his knowledge of the Lowcountry's farms and waterways to inspire his menu.
