ANGELA KIM, 23
“Dark shadows emphasize my mocha-colored eyes.”

I love that my natural hair is so versatile—
I can do so much with it!”

GUEST EDITOR:
DEVON FINLEY, 26

This Charleston native shares her top spots in the historic city. Good eats: If you’re looking for a refreshing cocktail—and some bites to pair it with—stop by The Rooftop at The Vendue (thevendue.com). The seared ahi tuna is foodporn-worthy. Retail therapy: Update your spring wardrobe at V2V Charleston (shopv2v.com), a cute boutique where you can shop brands like Vince Camuto and Free People. Hotel haven: For a gorgeous view of the Charleston Harbor, stay at the Francis Marion Hotel (francismarionhotel.com). Cocktail hour: Upper King Street (between Spring and Calhoun) is the place to be on a Saturday night. For a guaranteed good time, pop into Republic Garden & Lounge (republicgarden.com). Must-do: Indulge your inner foodie at the Charleston Wine and Food Festival (March 2 to 6, charlestonwineandfood.com), where you can take a pasta-making course, attend a wine tasting led by local sommeliers, or feast at one of the many decadent dinner events happening throughout the week.
IMPORTANT SAFETY INFORMATION (CONTINUED)

Do not take BOTOX Cosmetic (onabotulinumtoxinA) if you are allergic to any of the ingredients in BOTOX Cosmetic (see Medication Guide for ingredients), had an allergic reaction to any other botulinum toxin product such as Myobloc® (rimabotulinumtoxinB), Dysport® (abobotulinumtoxinA), or Xeomin® (incobotulinumtoxinA), have a skin infection at the planned injection site.

Tell your doctor about all your muscle or nerve conditions, such as myasthenia gravis, or Lambert-Eaton syndrome, as you may be at increased risk of serious side effects including difficulty swallowing and difficulty breathing from typical doses of BOTOX Cosmetic.

Tell your doctor about all your medical conditions, including: plans to have surgery; had surgery on your face; weakness of forehead muscles, such as trouble raising your eyebrows; drooping eyelids; any other abnormal facial change; are pregnant or plan to become pregnant (it is not known if BOTOX Cosmetic can harm your unborn baby); are breast-feeding or plan to breast-feed (it is not known if BOTOX Cosmetic passes into breast milk).

Tell your doctor about all the medicines you take, including prescription and nonprescription medicines, vitamins, and herbal products. Using BOTOX Cosmetic with certain other medicines may cause serious side effects. Do not start any new medicines until you have told your doctor that you have received BOTOX Cosmetic in the past.

Especially tell your doctor if you have received any other botulinum toxin product in the last 4 months; have received injections of botulinum toxin, such as Myobloc® or Xeomin® in the past (be sure your doctor knows exactly which product you received); have recently received an antibiotic by injection; take muscle relaxants; take an allergy or cold medicine; take a sleep medicine; take aspirin-like products or blood thinners.

Other side effects of BOTOX Cosmetic include: dry mouth, discomfort or pain at the injection site, tiredness, headache, neck pain, and eye problems: double vision, blurred vision, decreased eyelash, drooping eyelids, swelling of your eyelids, and dry eyes.

For more information refer to the Medication Guide or talk with your doctor.

You are encouraged to report negative side effects of prescription drugs to the FDA. Visit www.fda.gov/medwatch or call 1-800-FDA-1088.
