

PARK CIRCLE AND THE WORLD'S LARGEST INCLUSIVE PLAYGROUND

Park Circle is OPEN! The entirety of the inner circle has been redeveloped and includes the largest inclusive playground in the world, a new community building with classrooms, flexible event space, a history and archives repository, an artist in residence studio and meeting rooms, an inclusive baseball field, a farmers market pavilion, nature garden, open green space, and walking trails.

The calendar for rentals of the new facility is currently scheduled to open for reservations and bookings on January 2, 2024. For more information, contact the [Cultural Arts Department](mailto:info@cityofjax.com) at 843-740-5854.

World's Largest Inclusive Playground!

Open DAWN to DUSK.

All kids are created equal with the same desire and need to experience play. Play that challenges and inspires them physically, supports and stimulates them cognitively and facilitates an emotional and social connection. A well-designed inclusive playground welcomes children and adults of all abilities to a play experience where everyone can interact and play together.

All children means everyone. The need for play does not distinguish between children who are typically developing and children with disabilities. Everyone of all abilities needs play. And everyone means not only children with a physical disability requiring an accessible playground, but it also includes developmental disabilities like autism; children with sight or hearing impairment and children with intellectual disabilities such as down syndrome. Everyone also includes siblings, parents, grandparents, friends and other caregivers.
