Charleston Water Week Celebrates its 5th Year - September 7-15, 2019

The 5th Annual Charleston Water Week is scheduled this Fall from September 7-15, 2019. Organized by the Charleston Area Sports Commission, the main goal of the week-long promotion is to bring awareness to the area's largest and best assets for sports events - our waterways, tidal creeks and oceanfronts. Designed for both locals and visitors, there are many exciting opportunities planned for the week ... on the water, in the water and by the water. Dozens of events available for competitors, recreational enthusiasts and leisure water buffs. Events range from professional waterskiing competitions to sunset excursions for groups. The CWW website is updated daily and listings are available @ charlestonwaterweek.com For new postings, go to FB: @CharlestonWaterWeek.

About the Organizer: The Charleston Area Sports Commission is an auxiliary organization of Explore Charleston, the official destination marketing organization for 11 area municipalities. As the region's central sports development agency, the Sports Commission markets the area as a premier destination for events which generate overnight visitation for participants and spectators. Established in 1999, it is now celebrating 20 years in sports tourism development! www.charlestonsports.org, @ChasSports.
