**North Charleston Mayor Keith Summey and City Council will break ground on the North Charleston Sports Complex on Wednesday, March 1st, 2023 at 10 am.**

The city says dated facilities have now been demolished (see video below) to make way for more modern amenities.

The \$25 million project includes a 25-meter competitive pool to complement the North Charleston Aquatic Center in Dorchester County; a gymnasium for basketball, volleyball, badminton, and other indoor athletics; five new tennis courts to meet the official United States Tennis Association standards; a roller rink for street hockey and roller-skating; and a multi-purpose field to meet the growing demands of the city's youth athletics.

The site is located at 1455 Monitor Street.
